#### Taxpayer Objects to Granting Such a Franchise.

#### NO BENEFIT TO EAST LIVERPOOL

A Taxpayer, Property Holder and Life Long Resident of This City. Objects to Granting the Chester Street Railway a Franchise—Commends the President of Council and His Co-workers.

EDITOR NEWS REVIEW:—I have been engaged in conversation with business men of this city, men who are old-time residents and property holders and taxpayers, over the matter of the Chester street railway, and the NEWS REVIEW has been brought up in the course of the conversation, and wonder has been expressed that your editorial columns have not discussed this subject fully and fearlessly, knowing that your paper advocates the right and cannot be bought or forced to advocate the wrong. One prominent business man asked me if I thought that the manager of the NEWS REVIEW could be influenced to show the matter up in its true light, editorially, if full information, tending to the right respecting the subject, was placed before him. My answer was that the NEWS REVIEW would advocate the right at any time and at all times, and I have been deputed to test the matter. And now a few words to the public:

Where will East Liverpool be benefited to any great extent by the Chester street railway? The proposed line, in so far as Ohio is concerned, will run from the end of the bridge to the Cleveland and Pittsburg railroad depot. Who will this benefit? It will simply benefit the men who are interested in the bridge, in the Chester Land company and in the Rock Spring pavilion and grounds. It will pick up passengers at the depot, carry them over to West Virginia, let them have a good (?) time there, where they will spend their money, bring them back to the depot and send them home again, without any material benefit to East Liverpool, save to the few individuals (and they are few) who are residents here and who have money invested, as men connected with the enterprise have boasted that the main sum invested here is invested by capitalists from a distance, anxious to invest money in a paying venture, and that East Liverpool investors don't carry much weight in the enterprise.

As a business man and property holder; as a man interested deeply in the prosperity of East Liverpool and looking to her future, I deprecate the idea of granting a franchise to the Chester street railway company, believing that the contemplated route would be a decided disadvantage to the city, and I hope our council will see it in the same light. Let the company carry out its threat not to come into the city, but to halt at the Ohio end of the bridge. In so far as East Liverpool is concerned, it is the very best thing they can do. I warmly commend John J. Purinton, president of council, and the members who are standing by him, for their staunch advocacy of the right and of the city's interest in this particular, and sincerely hope that they will not only not grant a 25-year franchise to the Chester street railway, but that they will, after the silly threats made by some of the parties connected with that company, decide the matter to be dead, wipe it off the books, and grant no franchise whatever.

John J. Purinton is my enemy. He has no use for me. I have no use for him. We have been enemies for many years. But I can see good points even in my enemy, and I am compelled to say that John J. Purinton has made a splendid councilman, has made a first-class president of council, has ruled with intelligence, tact and true wisdom, and has been able to hold good and true members of council with him in the solution of vital questions and legitimate work for the right, and I earnestly hope that he will remain in council after unworthy members are cast out at the coming election, and be able to assist materially in the battle for Liverpool's best interests—a battle which is now in the atmosphere and which cannot be avoided. John J. Purinton and his coworkers are in the right respecting this 25 year franchise question, and I believe they have the approval of every business man in this city, outside of the men who are influenced by private money considerations.

TAXPAYER.

JOHN G. WOOLLEY.

A Practical Christian Very Warmly Commends Him.

EDITOR NEWS REVIEW:—John G. Woolley, the champion of total abstinence from the drink curse; the earnest

advocate of the prohibition of the manufacture and sale of intoxicants in this grand republic; the redeemed man, under the mercy of an all merciful God; the champion of wives, children and home; the grandly strong and brainy hater of the liquor traffic; the man who despises, as he has a right to despise, the professing Christian who caters to and plays policy with the rum dealer; the man who loves and honors the Christian minister who possesses the courage of his convictions and who follows in the footsteps, as closely as humanity can, of the Redeemer of the world. He who called sin by its right name, and who never resorted to policy or subterfuge; the man who, under God, is doing more than any other single individual in the United States against the rum demon or devil; the man who despises the professing Christian who rents his property unto a saloon keeper, wholesale liquor dealer, brewer, or any dealer in intoxicants, knowing that said property will be prostituted to the sale of intoxicants, which rob men of earthly goods, rob and beat and murder wives and innocent children, and finally send their souls to a drunkard's hell; this man, John G. Woolley, will be at Wellsville on Jan. 23, 24 and 25, and I hope and pray that the men and women of East Liverpool, who love clean life in the home circle, and who hate the devil of rum, will rally to his standard and assist in giving him a royal welcome. Would to God that he might be induced to come to East Liverpool, speak at the opera house, pack it to its full capacity, and then hurl his thunderbolts of experience, history, eloquence, logic, unanswerable questions and impassioned utterances at the liquor traffic and dealers therein, and then turn his vials of wrath against professing (?) Christians who back up the liquor dealers, directly and indirectly, and cut, as he only can, in words of burning, righteous wrath and withering contempt, the man or men, laymen or ministers, who denounce him for his exposure of hypocrites and frauds, policy dealers and apologists for the liquor curse.

#### GET AN EDUCATION.

You Can Fit Yourself For the Battle of Life at Light Expense.

For a number of years this city has been in need of a good night school, a school that the hundreds of young people that have to work during the day could attend and get an education, and at last the right man is in the right place. Professor Cooper, the famous penman and expert accountant, and his able corps of assistants, are giving East Liverpool a school that few cities can pride itself upon having, and the people of this city should be proud of such an institution. When Professor Cooper takes his place at the head of a class in penmanship of 80 students, the class is at once so filled with enthusiasm that the time speeds around and the dismissal bell rings before the class thinks half the time has passed.

It is the duty of every parent to give their children an education and a good, plain business hand is the first and essential part of an education. Now, as we have no professional expert in our public schools in penmanship, and cannot get such an able man in the art as Professor Cooper, parents should recognize the almost absolute necessity of sending their children to the Ohio Valley Business college, and let them take writing lessons from the best instructor and ablest penman East Liverpool has ever had the pleasure of having in their midst. The Ohio Valley Business college is making special rates to the public school children for evening lessons in writing. It won't cost you much to send your children and try it for a month, and if you are not satisfied, it won't cost you a cent. Try to have a talk with Prof. George N. Butcher, the popular manager, and an old and experienced college man. In a recent talk with him in regard to the best methods of teaching writing, he said:

"I have been connected with some of the leading business colleges in this country, and visited several schools in Europe, and can truthfully say that the instruction given by Professor Cooper is equal to any of the many noted penmen I have met in my travels, and think East Liverpool should be proud of the institution over which he presides."

#### VIOLATING THE LAW.

East End Men Are Charged With Shooting Birds.

It is reported from a reliable source that two well known East End young men are regularly violating the game laws. On one occasion this week they returned from a hunting trip with 13 head of game, among which were a number of birds. They violate the law with impunity, and unless they stop very soon, complaint will be made to the game warden, and the hunters will be compelled to pay dearly for what they shoot.

### TRENTON IN A BAD WAY

#### The Potters Are Treading a Rocky Road.

#### HON. J. HART BREWER'S AMBITION

He Would Be Collector of the Port of New York—Crockery Will Get a Substantial Increase in Tariff—Why the Trenton Man Came West.

"Trade is very dull with the Trenton potteries, and few are doing anything, although I firmly believe it will be better next month. The indications all point that way."

The speaker was Hon. J. Hart Brewer, at one time one of the best known pottery manufacturers of the east, and a leading member of the national association. Mr. Brewer was about to take the evening train for Trenton, having spent Saturday afternoon calling on his friends in this city.

"The condition of the general and sanitary trades is deplorable," continued Mr. Brewer, "but we all expect an improvement next month. This is already apparent, and there is hope abundant among the potters. All the manufacturers are making every effort to operate their plants in full. Of course no one knows what duty will be imposed on imported crockery, but I believe the American potter will be given enough protection to allow him to compete with the fellows across the water."

Mr. Brewer had been in Canton for the purpose of seeing Major McKinley. He is a candidate for collector of the port of New York, and has the endorsement of the Trenton potters. The gentleman is a close friend of Major McKinley, having served two years with him in congress, and his friends believe he will secure the plum. It is known that Mr. Brewer has the support of many of Major McKinley's friends in East Liverpool. The position he seeks is one of the best on the list of appointments in the gift of the president.

#### A CHANGE OF MANAGERS.

Frank R. Swaney Returns to the City With a Good Record.

The telephone company announce a change in the management of the local exchange, F. R. Swaney succeeding Manager Gilchrist. Mr. Swaney has for some time been in charge of the Beaver valley district, where he met with great success, increasing the number of subscribers from 300 to 650. Mr. Swaney will at once put the system in the best of order, and an effort will be made to increase the business of the company. Mr. Gilchrist will remain here until the first of the month, and will then be transferred to a point not yet selected. The gentleman has made many friends while in the city.

#### MAGOWAN PAID THE HUSBAND.

The Suit of a Cleveland Man Was Settled Saturday.

A special from Trenton says that the suit of Alfred Barnes, of Cleveland, against Frank A. Magowan, for alienation of the affections of his wife, was settled Saturday in Trenton. The story will be well remembered by East Liverpool, since many of them know the ex-mayor of Trenton very well. It was generally admitted yesterday that a settlement had been effected. Mrs. Barnes and Mr. Magowan each secured divorces in Oklahoma, and it is said they would have been married ere this but for the question of the legality of such documents.

#### JAMES ORMES ARRESTED.

He Was Charged With Obtaining Money Under False Pretense.

At a late hour Saturday afternoon Chief Johnson went to the East End and arrested James Ormes on a charge of obtaining money under false pretense. The charge was made by Archie Bruce, who claimed Ormes borrowed \$2 several months ago and failed to return the money. Ormes claims he had no intention of defrauding Bruce, but could not pay the money because he did not have it. He was released on bail, and will be given a hearing this week if the case is not compromised.

#### A STRONG CLUB.

An East End Organization Starts With Good Prospects.

The East End Athletic club is the name of an organization recently formed in that part of the city. Charles A. Gallagher is president and manager, and J. Filber is secretary and treasurer. The club have rented quarters in the Chambers building, and will have them fitted up at once. Three rooms will be the lounging quarters and a large room

will be fitted up as a gymnasium. It is proposed with the opening of spring to organize a base ball club, and next fall it will have two foot ball teams in the field. The club starts with a good membership and abundant enthusiasm.

#### ESTABLISHING A GRADE.

Street Committee Inspected Oak and River Streets.

Councilman Kent, Peake and Challis, of street committee, and Engineer George spent Saturday afternoon looking over Oak and Stevenson streets with a view to establishing a grade. The streets are east of Avondale, and several heavy cuts will be necessary to put them in good order. On Riverview the cut will in some places be 20 feet, and Oak street about 15 feet. The recommendation will be given to council at the next meeting, but it is not known when the improvement will be ordered.

#### NO ONE HURT.

But the Station Platform at Sewickley Was Torn Up by a Wreck.

Shortly before 12 o'clock last night a heavy coal laden train west bound broke an axle at Sewickley, and was completely wrecked. The accident occurred near Chestnut street. The station platform on both sides was torn up for about 100 feet, and three cars piled on top of each other. The other cars were reduced to kindling wood. Part of the station shed was destroyed. No one was injured. The midnight train was delayed, and did not reach here until almost 7 o'clock this morning.

#### AN UNUSUAL PROCEEDING.

A Woman Ran Screaming Through Sixth Street.

A well known resident of Sixth street was aroused at 4 o'clock this morning by the wildest shrieks he had ever heard, and hastening to the window saw what he would like very much to have explained. A woman with her hair flying loose ran along the street crying at the top of her voice. Close behind her came a man without coat or hat. He in turn was followed by three small children. The gentleman is convinced he was not dreaming, and would like to know what it all meant.

#### TO BE MARRIED TOMORROW.

The Wedding of Mr. William Erlanger and Miss Sophia Samler.

Tomorrow afternoon at 5 o'clock Mr. William Erlanger and Miss Sophia Samler will be married at the home of the bride in Philadelphia. The ceremony will be performed by Rabbi Henry Berkowitz. The wedding dinner will be served in the spacious parlors of the Mercantile club, with covers for 200. After a visit of two weeks in Eastern cities, Mr. and Mrs. Erlanger will come to this city, and reside in a pleasant home on Third street.

#### A PHYSICAL EXAMINATION.

The Government Has New Specifications For Mail Carriers.

Those persons who expect some day to enter the mail service as carriers will be interested in knowing the government will in future demand that they pass a satisfactory physical examination. They must be five feet four inches in height and weigh no less than 125 pounds. Heretofore no attention was paid to the height and weight of applicants, a physician's certificate that the applicant was in good health being all that was asked.

#### A BROKEN RAIL.

Delayed the Morning Train Until It Was Replaced.

The morning train east was delayed for half an hour by a broken rail. The break was discovered by C. C. Carmen a few minutes before the train was due, and he at once ran down the track to flag it. The section crew were working not far away, and lost no time in replacing the rail with a good one. Had the break not been discovered, an accident would have resulted.

#### TOO MANY LOAFERS.

They Filled the Sidewalks and the Police Said Nothing.

The streets on Saturday night looked as though the police had abandoned any pretense of keeping them clear of loafers. The sidewalks of the Diamond were lined with crowds until a late hour, and Fifth and Sixth streets in the business portion had more than their share. At times pedestrians were compelled to force their way through the crowds.

#### Making Changes.

The pipe connections of two furnaces at Central school building are being changed today, in order that the working of the system be improved. The representatives of the company will inspect all the Smead heaters in the city.

Read the street railway franchise editorial.

### IRONDALE'S NEW MILL

#### It Will Be Built If the Tariff Is Increased.

#### TO EMPLOY THREE HUNDRED

Will Be an Addition to the Plant Now in Operation and Will Increase the Capacity Many Tons a Day—The Tin Town Is Happy.

The people of Irondale are happy because they have every reason to believe the next few years has unexampled prosperity in store for them.

Mr. Banfield, of the tin manufacturing company, was one of the committee who presented the claims of their branch of trade to the ways and means committee at Washington. They made out a good case, and were probably informed in some manner that the protectionists looked favorably upon the application, and the duty on imported tin would be increased. That is the belief in Irondale, for soon after Mr. Banfield's return it was known that the company were making preparations to enlarge the plant. The additions will be made up of a sufficient number of mills to employ several hundred men. This, it is calculated, will bring in the neighborhood of a thousand people to Irondale, and the place will become a much more important point. The town is even now prosperous; almost every one within its borders are employed, and merchants are doing good business.

#### Taxpayer Objects to Granting Such a Franchise.

#### NO BENEFIT TO EAST LIVERPOOL.

A Taxpayer, Property Holder and Life Long Resident of This City. Objects to Granting the Chester Street Railway a Franchise—Commends the President of Council and His Co-workers.

EDITOR NEWS REVIEW:—I have been engaged in conversation with business men of this city, men who are old-time residents and property holders and taxpayers, over the matter of the Chester street railway, and the NEWS REVIEW has been brought up in the course of the conversation, and wonder has been expressed that your editorial columns have not discussed this subject fully and fearlessly, knowing that your paper advocates the right and cannot be bought or forced to advocate the wrong. One prominent business man asked me if I thought that the manager of the NEWS REVIEW could be influenced to show the matter up in its true light, editorially, if full information, tending to the right respecting the subject, was placed before him. My answer was that the NEWS REVIEW would advocate the right at any time and at all times, and I have been deputed to test the matter. And now a few words to the public:

Where will East Liverpool be benefited to any great extent by the Chester street railway? The proposed line, in so far as Ohio is concerned, will run from the end of the bridge to the Cleveland and Pittsburg railroad depot. Who will this benefit? It will simply benefit the men who are interested in the bridge, in the Chester Land company and in the Rock Spring pavilion and grounds. It will pick up passengers at the depot, carry them over to West Virginia, let them have a good (?) time there, where they will spend their money, bring them back to the depot and send them home again, without any material benefit to East Liverpool, save to the few individuals (and they are few) who are residents here and who have money invested, as men connected with the enterprise have boasted that the main sum invested here is invested by capitalists from a distance, anxious to invest money in a paying venture, and that East Liverpool investors don't carry much weight in the enterprise.

As a business man and property holder; as a man interested deeply in the prosperity of East Liverpool and looking to her future, I deprecate the idea of granting a franchise to the Chester street railway company, believing that the contemplated route would be a decided disadvantage to the city, and I hope our council will see it in the same light. Let the company carry out its threat not to come into the city, but to halt at the Ohio end of the bridge. In so far as East Liverpool is concerned, it is the very best thing they can do. I warmly commend John J. Purinton, president of council, and the members who are standing by him, for their staunch advocacy of the right and of the city's interest in this particular, and sincerely hope that they will not only not grant a 25-year franchise to the Chester street railway, but that they will, after the silly threats made by some of the parties connected with that company, decide the matter to be dead, wipe it off the books, and grant no franchise whatever.

John J. Purinton is my enemy. He has no use for me. I have no use for him. We have been enemies for many years. But I can see good points even in my enemy, and I am compelled to say that John J. Purinton has made a splendid councilman, has made a first-class president of council, has ruled with intelligence, tact and true wisdom, and has been able to hold good and true members of council with him in the solution of vital questions and legitimate work for the right, and I earnestly hope that he will remain in council after unworthy members are cast out at the coming election, and be able to assist materially in the battle for Liverpool's best interests—a battle which is now in the atmosphere and which cannot be avoided. John J. Purinton and his coworkers are in the right respecting this 25 year franchise question, and I believe they have the approval of every business man in this city, outside of the men who are influenced by private money considerations.

TAXPAYER.

JOHN G. WOOLLEY.

A Practical Christian Very Warmly Commends Him.

EDITOR NEWS REVIEW:—John G. Woolley, the champion of total abstinence from the drink curse; the earnest

advocate of the prohibition of the manufacture and sale of intoxicants in this grand republic; the redeemed man, under the mercy of an all merciful God; the champion of wives, children and home; the grandly strong and brainy hater of the liquor traffic; the man who despises, as he has a right to despise, the professing Christian who caters to and plays policy with the rum dealer; the man who loves and honors the Christian minister who possesses the courage of his convictions and who follows in the footsteps, as closely as humanity can, of the Redeemer of the world. He who called sin by its right name, and who never resorted to policy or subterfuge; the man who, under God, is doing more than any other single individual in the United States against the rum demon or devil; the man who despises the professing Christian who rents his property unto a saloon keeper, wholesale liquor dealer, brewer, or any dealer in intoxicants, knowing that said property will be prostituted to the sale of intoxicants, which rob men of earthly goods, rob and beat and murder wives and innocent children, and finally send their souls to a drunkard's hell; this man, John G. Woolley, will be at Wellsville on Jan. 22, 23 and 24, and I hope and pray that the men and women of East Liverpool, who love clean life in the home circle, and who hate the devil of rum, will rally to his standard and assist in giving him a royal welcome. Would to God that he might be induced to come to East Liverpool, speak at the opera house, pack it to its full capacity, and then hurl his thunderbolts of experience, history, eloquence, logic, unanswerable questions and impassioned utterances at the liquor traffic and dealers therein, and then turn his vials of wrath against professing (?) Christians who back up the liquor dealers, directly and indirectly, and cut, as he only can, in words of burning, righteous wrath and withering contempt, the man or men, laymen or ministers, who denounce him for his exposure of hypocrites and frauds, policy dealers and apologists for the liquor curse.

#### ESTABLISHING A GRADE.

#### Street Committee Inspected Oak and River-view Streets.

Councilman Kent, Peake and Challis, of street committee, and Engineer George spent Saturday afternoon looking over Oak and Stevenson streets with a view to establishing a grade. The streets are east of Avondale, and several heavy cuts will be necessary to put them in good order. On River-view the cut will in some places be 20 feet, and Oak street about 15 feet. The recommendation will be given to council at the next meeting, but it is not known when the improvement will be ordered.

#### NO ONE HURT.

#### But the Station Platform at Sewickley Was Torn Up by a Wreck.

Shortly before 12 o'clock last night a heavy coal laden train west bound broke an axle at Sewickley, and was completely wrecked. The accident occurred near Chestnut street. The station platform on both sides was torn up for about 100 feet, and three cars piled on top of each other. The other cars were reduced to kindling wood. Part of the station shed was destroyed. No one was injured. The midnight train was delayed, and did not reach here until almost 7 o'clock this morning.

#### AN UNUSUAL PROCEEDING.

#### A Woman Ran Screaming Through Sixth Street.

A well known resident of Sixth street was aroused at 4 o'clock this morning by the wildest shrieks he had ever heard, and hastening to the window saw what he would like very much to have explained. A woman with her hair flying loose ran along the street crying at the top of her voice. Close behind her came a man without coat or hat. He in turn was followed by three small children. The gentleman is convinced he was not dreaming, and would like to know what it all meant.

#### A BROKEN RAIL.

#### Delayed the Morning Train Until It Was Replaced.

The morning train east was delayed for half an hour by a broken rail. The break was discovered by C. C. Carmen a few minutes before the train was due, and he at once ran down the track to flag it. The section crew were working not far away, and lost no time in replacing the rail with a good one. Had the break not been discovered, an accident would have resulted.

#### TOO MANY LOAFERS.

#### They Filled the Sidewalks and the Police Said Nothing.

The streets on Saturday night looked as though the police had abandoned any pretense of keeping them clear of loafers. The sidewalks of the Diamond were lined with crowds until a late hour, and Fifth and Sixth streets in the business portion had more than their share. At times pedestrians were compelled to force their way through the crowds.

### IRONDALE'S NEW MILL

#### It Will Be Built If the Tariff Is Increased.

#### TO EMPLOY THREE HUNDRED

Will Be an Addition to the Plant Now in Operation and Will Increase the Capacity Many Tons a Day—The Tin Town Is Happy.

The people of Irondale are happy because they have every reason to believe the next few years has unexampled prosperity in store for them.

Mr. Banfield, of the tin manufacturing company, was one of the committee who presented the claims of their branch of trade to the ways and means committee at Washington. They made out a good case, and were probably informed in some manner that the protectionists looked favorably upon the application, and the duty on imported tin would be increased. That is the belief in Irondale, for soon after Mr. Banfield's return it was known that the company were making preparations to enlarge the plant. The additions will be made up of a sufficient number of mills to employ several hundred men. This, it is calculated, will bring in the neighborhood of a thousand people to Irondale, and the place will become a much more important point. The town is even now prosperous; almost every one within its borders are employed, and merchants are doing good business.

EAST LIVERPOOL, O., MONDAY, JAN. 18.

MARCUS ALONZO HANNA deserves the recognition of his party. Governor Bushnell can do no better than appoint him to fill the vacancy as soon after the resignation of Senator Sherman as the action can be taken.

## QUESTION OF FRANCHISES.

The right should win always. If the Chester street railway is a good thing for East Liverpool, and if its extension to the Cleveland & Pittsburgh railroad depot would add to the prosperity of this city, then should the members of our councilmanic body become a unit in its advocacy, and aid its development and progress in every possible manner, consistent with honor and honesty. Following this thought comes the common sense idea as to the propriety of granting a franchise of 25 years duration. Is this the right thing to do? Will the members of council be acting wisely and in a common sense manner to give such an extended franchise? The News Review believes not. The term is too great. It is a question as to whether the road, limited and circumscribed as it is, will prove of any real benefit to East Liverpool. Council, after mature deliberation and careful consideration, has decided that, hedged about by wise and common sense precautions, the city should grant a 10 year franchise. Those most interested—the men who are asking for the 25 year franchise—have asserted that, in case they do not get the full term asked for by them, they will build the line no further than the Liverpool side of the bridge. Threats of this character are very unwise, and the weapons very dangerous; in fact, they may possibly act as boomerangs, and injure the men who hurl them. Personal likes or dislikes should not, must not, be taken into consideration. The question at issue is simply this, in a nutshell: "Will a 25 year franchise, granted to the Chester Street Railway company, be a good or bad thing for East Liverpool?" A quarter of a century is a long time in this age of development and progress, and it is within the bounds of possibility, in fact it is very probable, that such a franchise will interfere very materially with the very best interests of the city of East Liverpool before the lapse of a quarter of a century, and the boys of today would very likely rise up and assert, 25 years hence, in case this extended franchise is granted, that "wise men were scarce in those days." Let council consider this matter very carefully, and act with good judgment, carrying neither fear nor favor. Intelligent readers, men who have given the subject careful attention and study, have demonstrated, to their full satisfaction, the fact that the day of carelessly granting valuable franchises, on the part of municipal authorities, to private parties or corporations, without full return for value received, has passed away, never again to return. History points out the fact that valuable franchises have been granted, by and through which municipalities have gained nothing but increased taxation, while the recipients of said franchises simply coined money. Later developments, under the management of keen business men in office, in the old world, as well as in the United States, has resulted in the sale of franchises of value, and on such favorable terms as to materially ease the burdens of the taxpayers of the city, instead of adding to them. In the light of such evidence, it behooves the councilmen of East Liverpool to weigh well their actions in this matter, and represent, as they have sworn they will do, the very best interests of their constituents. City Engineer George, a careful and conservative man, believes that it will require very great care to avoid trouble and accidents in connection with the proposed route from the bridge to the Pittsburgh and Cleveland railroad depot, and wide awake business men and manufacturers assert that it will interfere materially with traffic on the thoroughfares leading to the river. Surely if council grants a 10 year franchise to the Chester Street Railway company, that company is receiving very much more than they give, and have not a shadow of right to complain.

## FINAL ACTION OF MINERS.

National Convention Changed Resolutions and Elected Officers.

COLUMBUS, Jan. 18.—The United Mine Workers of America adopted the following:

"Resolved, That the wages of all day labor advance in proportion to the mining rate."

"Resolved, That the Jackson, Massillon, Coshocton, Carroll and Tuscarawas and No. 6 of Columbiana county demand 9 cents per ton differential over the Hocking valley."

These resolutions were amended by striking out Tuscarawas and Carroll counties and the words "other low coal fields" inserted.

"Resolved, That the above scale go into effect on Feb. 1."

The election of officers for the ensuing year resulted: President, M. D. Ratford, Ohio; vice president, John Kane, Indiana; secretary, W. C. Pearce; executive board, J. H. Kennedy, Indiana; R. L. Davis, Ohio; Patrick Dolan, Pennsylvania; Fred Dichter, Ohio; Henry Stephenson, West Virginia; and James Carson of Illinois.

P. M. McBride, W. C. Webb and Cameron Miller were elected delegates to the next Federation of Labor national convention.

The next convention is to be held in Columbus.

The operators refused to meet the miners in conference today, owing to different resolutions adopted at the sessions. Finally charges were made.

First, the demand of the convention that the new scale of prices go into effect February 1 was rescinded. Second, the resolution prohibiting settlements by districts was rescinded, and the entire matter of prices was placed in the hands of the district presidents and the national executive board. Third, it was decided to use every effort to secure an advance in the mining rate from DeArmit of the Pittsburgh district.

## ROBBERS STOLE \$500.

Entered a Toledo Office and Robbed the Cashier.

TOLEDO, Jan. 18.—A man dashed into the office of the Northwestern Elevator and Mill company Saturday and pointing a revolver at the cashier, cried out: "Throw up your hands, give me your money and don't say a word or I'll blow your head off."

The cashier, who was alone, made a rush to the telephone, but the robber had cut the wire before entering the office. He then walked behind the counter, still covering the cashier with the revolver, gathered up \$500 in silver and gold, placed them in a bag and coolly walked out, entered a buggy that was in waiting with a second man in it and drove away at a lively rate.

The cashier was making up the pay envelopes when the robber entered. Cashier Harry Tanner says he recognized the robber.

## Unemployed Will Be Given Work.

DAYTON, O., Jan. 18.—At a meeting of members of the tax commission, city council and board of city affairs it was decided to borrow \$10,000 to be expended in street cleaning, to give employment to citizens of Dayton now in distress. Mr. Adam Schantz, at a meeting of the unemployed, agreed to furnish the B. C. A. \$10,000 to be so expended, and the result was the meeting of the three city boards to approve the acceptance of the loan.

AKRON, O., Jan. 18.—James McHugh of Johnstown, Pa., who confessed to the murder of Richard Vincent in this city two weeks ago, has been adjudged insane by Judge E. W. Stuart and will be sentenced to the asylum. He stated to the judge that he had killed the devil, but that there was a son living named Brown, whom he must also kill. Religious excitement undoubtedly drove him insane.

## A MURDERER CHIEF.

Band of Robbers Spreading Terror in Oklahoma.

### GEORGE TAYLOR IS THE LEADER.

A Wagon Train Raided and About \$1,000 Stolen—Saloons and Residences Robbed at Newkirk—Five Men Disguised as Tramps Arrested.

GUTHRIE, O. T., Jan. 18.—A party of emigrants enroute from Missouri to Oklahoma by wagon train have been held up and robbed of all money and valuables in the mountain country on the western line of the Creek reservation. The robbers secured about \$1,000.

There were six bandits under the leadership of a man whom one of the Missourians recognized as George Taylor, the escaped murderer of the Meeks family. This is the same section in which a traveling man recognized Taylor a month ago and is a rough mountainous district, where the Dalton, Cook and Dolan gangs formerly had their rendezvous.

PERRY, O. T., Jan. 18.—Robbers have taken in the town of Newkirk, north of here. Saloons were robbed of all money and quantities of whisky and beer. Residences were entered and many things taken out. Officers think the robbers came into town under the guise of tramps. Five tramps were arrested here for highway robbery.

### GUNBOAT SENT TO SIAM.

Assault on Our Vice Consul to Be Investigated.

WASHINGTON, Jan. 18.—The gunboat Machias has been ordered to Bangkok, Siam, from Canton, China, by Secretary Herbert "to protect American interests."

The state department declines to divulge the information from Bangkok which causes the dispatch of a warship to the scene, but there is no doubt that the attack on the United States Vice Consul General Edward B. Kellett by Siamese soldiers is at the bottom of it. Dispatches three weeks ago announced that Mr. Kellett, who is an unpaid official, appointed by Minister Barret, had been fired upon and wounded by Siamese soldiers.

For some time litigation has been in progress over the estate of an American named Cheek, who held a valuable teak concession from the Siamese government. This had been highly remunerative during Cheek's lifetime, but when after his death it became desirable to wind up his estate the Siamese government took measures to prevent the sale of elephants he had raised and employed in getting out timber.

It is said that Kellett was the executor for the estate, and his activity in their behalf probably led to friction with the Siamese authorities, who perhaps overstepped legal methods in trying to get rid of him.

### COST OF INAUGURATION TRIP.

Rates for Visitors Given Out by Chairman Bell.

WASHINGTON, Jan. 18.—Washingtonians who are making effort to so arrange the inaugural ceremonies of Mr. McKinley so that none can complain are disturbed by statements circulated in certain parts of the country to the effect that extortionate rates are to be exacted of those who come here to witness the inauguration ceremonies. Speaking to your representative Chairman Bell said:

"If people insist on making their own arrangements the inauguration committee cannot be held responsible, but it can assure any one who will address Colonel L. P. Wright, chairman of the committee on public comfort, that he will secure for them the best accommodations for from 20,000 to 30,000 persons, mostly in private houses, which are well located and which are supplied with all modern conveniences. The list is daily increasing. The rates will average about as follows:

For lodging only, \$1 per day for beds and 75 cents for cots, \$1.25 to \$1.50 for lodging and breakfast and \$2 to \$2.50 for lodging and meals.

Good horses for the parade may be hired for from \$5 to \$10. If persons have equipments it would be well to bring them, although such as may not possess them will be supplied by the committee at moderate cost."

### RUINED BY THE WIND.

A Window Glass Factory Blown Down at Anderson, Ind.

ANDERSON, Ind., Jan. 18.—A hurricane wind through the central part of Indiana has done damage at various points. The greatest here was the destruction of factory No. 4, of the Anderson Window Glass company, the roof was carried away and the walls fell in on fired furnaces and but for prompt work of the factory firemen a big fire would have occurred.

Insurance covers the loss. Fifty skilled men will be out of work for some time. The west wall of the old three-story opera house block burned out recently was blown down and streets leading to it were blocked by police.

## RIVERA TO CUBA'S FRIENDS.

Maceo's Successor Says Rebels Don't Want Canons, But Guns—Hopes to Attack Havana About the End of the Winter—Ammunition Needed.

NEW YORK, Jan. 18.—The World this morning prints an interview with General Ruis Rivera, obtained in field near Canco, near Pinar del Rio. In this interview General Rivera says:

"I do not wish to criticize our friends in the United States, for I believe them (referring to the junta) patriotic men and striving to do their best for Cuba, but we here, in Pinar del Rio, have been somewhat neglected."

"Great reliance was placed upon General Maceo, our beloved commander, and it was thought that he could not only defeat the enemy in the province, but finally make a junction with Gomez. But he knew and our friends should have known also that four or five or ten thousand men, poorly armed

GENERAL RUIS RIVERA

and most of the time with but scanty ammunition, could not prevail against 50,000 well armed and well fed troops. One or two well equipped expeditions landed—one at Corrientes bay—but otherwise for nine months we have been depending upon our strategy and knowledge of the province to keep us out of a pitched battle."

"Speaking with reference to canons, I wish it could be communicated to our friends in the United States that canons are more in the way of ourselves than of the enemy in this province. In the first place they are inconvenient to take about over the hills, through the district of Managua and among the woods. The canons we have now represents an outlay of \$4,000 or \$5,000, and yet almost 1,000 rifles could be purchased for that sum. Of course when we are in a position to assault Havana heavy guns will be a necessity. Do we expect it soon? No, not very soon—about the end of the winter, I hope."

"There is certainly nothing to be gained by making statements that are untrue, or that I do not believe in myself."

### GOOD FOR THE CROPS.

A Heavy Fall of Snow Throughout the Northwest.

ST. PAUL, Jan. 18.—Throughout the Dakotas, Minnesota and Wisconsin a regular old-fashioned snowstorm has been prevailing and the mercury is dropping slowly.

A heavy snowfall has been very general reported and a gale has drifted it badly, demoralizing street cars in the cities and generally interfering with transportation facilities. The fall of snow will be good for the coming crops and is therefore welcomed by farmers. The usual reports of big drifts have been received from various points.

### The Treaty Pleases the Pope.

LONDON, Jan. 18.—The Chronicle's correspondent at Rome says the pope has heard of the signing of the Anglo-American treaty with very lively satisfaction. He would wish the papacy to be regarded as a permanent arbitration tribunal for all nations, but he is glad to see the principle adopted in any form.

### Don't Fear a European Plague.

PARIS, Jan. 18.—In an interview, Dr. Roux, who is connected with the department of hygiene, denied a report, which has been published, that he had made experiments with an anti-plague lymph. He would know how to prepare the lymph, he said, if it were needed, but he felt confident that bubonic plague would never get a hold in Europe.

## OPPOSED TO HANNA.

Bushnell Said to Want Sherman's Job Himself.

### A SPRINGFIELD REPORTER'S TALE.

He Declares That a Close Relative of the Governor Is His Authority and That Bushnell Made This Relative a Confidant—Details of the Story.

SPRINGFIELD, O., Jan. 18.—A close relative of Governor Bushnell whose name cannot be used for obvious reasons, makes the statement concerning the authenticity of which there can be no doubt that Governor Bushnell in so many words stated to him that he would not appoint Marcus A. Hanna to the vacancy in the United States senate.

The governor and the relation mentioned had quite a talk on the subject, and the governor gave him to understand that Hanna's name could not be considered for the place at all. The relative, further along, stated to a local newspaperman that there was no doubt whatever of Governor Bushnell's desire to go to the senate himself. He added that he was very ambitious politically and that the present situation afforded him an opportunity to gratify a long cherished wish to get into the senate.

In connection with the above a number of Governor Bushnell's friends are openly requesting him to resign as governor and then let Lieutenant Governor Jones, who would be his successor, appoint him senator. Jones would in that event, it is urged, be the Republican candidate for governor next fall by the turn of affairs.

To strengthen the above statement, if strength is needed all newspaper men who have tried to interview Governor Bushnell about Hanna's candidacy for the senate know that he has always courteously declined to talk about it. In view of this fact, it is argued that if there was no objection to Hanna the governor would speak out.

### QUAY'S VISIT TO CANTON.

Neither He Nor Penrose Will Talk of Their Mission.

PHILADELPHIA, Jan. 18.—United States Senator Quay and State Senator Penrose have returned to this city from their trip to Canton, where they visited President-elect McKinley.

Senator Quay remained quietly at the Hotel Walton for a few hours, leaving later for Washington. He declined to be interviewed concerning the conference with Major McKinley.

Speaking of his visit to Canton, Senator Penrose expressed his surprise at the excellent physical condition displayed by the president-elect. He said McKinley's eye was bright and clear and his every movement indicated the possession of almost perfect health and strength. This Mr. Penrose regarded

as remarkable, considering the great physical and mental strain Mr. McKinley has been compelled to undergo for several months past.

Senator Penrose says he is perfectly satisfied with the result of his visit to Mr. McKinley, but, like Senator Quay, declined to make any statement.

### SPENT A QUIET SUNDAY.

Major McKinley Went to Church as Usual—Some Visitors.

CANTON, O., Jan. 18.—President-elect McKinley attended church services as usual Sunday morning, going to the First Methodist church, of which congregation he is a trustee. During the afternoon he took a drive and later he visited his mother.

Hon. H. S. Morey, accompanied by General Brester and wife of Detroit, have called on Major McKinley. Mr. Morey positively denied that he represented Mr. Foraker or that he was the emissary of any one. Regarding Mr. Hanna's senatorial aspirations, Mr. Morey said he had no doubt Mr. Hanna would be pleased to be appointed, as would any other Ohio man. He also emphatically denied that he had made any such statements as were accredited to him concerning Governor Bushnell, Chairman Hanna, Senator Sherman, Ohio politics and the selection of Senator Sherman's successor.

### Hanna on the Senatorship.

CLEVELAND, Jan. 18.—Chairman Hanna said that he had authorized no one to state that he had come out as a candidate for United States senator to succeed Senator Sherman. That was a matter which he was not discussing with anybody, he said. He declared furthermore that he made no statement such as had been given to the press to anybody.

## QUESTION OF FRANCHISES.

The right should win always. If the  
Chester street railway is a good thing  
for East Liverpool, and if its extension  
to the Cleveland & Pittsburgh railroad  
depot would add to the prosperity of this  
city, then should the members of our  
councilmanic body become a unit in its  
advocacy, and aid its development and  
progress in every possible manner, con-  
sistent with honor and honesty. Fol-  
lowing this thought comes the common  
sense idea as to the propriety of grant-  
ing a franchise of 25 years duration. Is  
this the right thing to do? Will the  
members of council beacting wisely and  
in a common sense manner to give such  
an extended franchise? The NEWS  
REVIEW believes not. The term is too  
great. It is a question as to whether  
the road, limited and circumscribed as  
it is, will prove of any real benefit to East  
Liverpool. Council, after mature deli-  
beration and careful consideration, has  
decided that, hedged about by wise and  
common sense precautions, the city  
should grant a 10 year franchise. Those  
most interested—the men who are ask-  
ing for the 25 year franchise—have as-  
serted that, in case they do not get the  
full term asked for by them, they will  
build the line no further than the Liver-  
pool side of the bridge. Threats of this  
character are very unwise, and the  
weapons very dangerous; in fact, they  
may possibly act as boomerangs, and  
injure the men who hurl them. Personal  
likes or dislikes should not, must not,  
be taken into consideration. The ques-  
tion at issue is simply this, in a nut  
shell: "Will a 25 year franchise, granted  
to the Chester Street Railway company,  
be a good or bad thing for East Liver-  
pool?" A quarter of a century is a long  
time in this age of development and  
progress, and it is within the bounds of  
possibility, in fact it is very probable,  
that such a franchise will interfere very  
materially with the very best interests  
of the city of East Liverpool before the  
lapse of a quarter of a century, and the  
boys of today would very likely rise up  
and assert, 25 years hence, in case this  
extended franchise is granted, that  
"wise men were scarce in those days."

Let council consider this matter very  
carefully, and act with good judgment,  
currying neither fear nor favor.  
Intelligent readers, men who have  
given the subject careful attention and  
study, have had demonstrated, to their  
full satisfaction, the fact that the day  
of carelessly granting valuable franchises,  
on the part of municipal authorities, to  
private parties or corporations, without  
full return for value received, has passed  
away, never again to return. History  
points out the fact that valuable fran-  
chises have been granted, by and  
through which municipalities have  
gained nothing but increased taxation,  
while the recipients of said franchises  
simply coined money. Later develop-  
ments, under the management of keen  
business men in office, in the old world,  
as well as in the United States, has re-  
sulted in the sale of franchises of value,  
and on such favorable terms as to materi-  
ally ease the burdens of the taxpayers  
of the city, instead of adding to them.  
In the light of such evidence, it behooves  
the councilmen of East Liverpool to  
weigh well their actions in this matter,  
and represent, as they have sworn they  
will do, the very best interests of their  
constituents. City Engineer George, a  
careful and conservative man, believes  
that it will require very great care to  
avoid trouble and accidents in connec-  
tion with the proposed route from the  
bridge to the Pittsburgh and Cleveland  
railroad depot, and wide awake business  
men and manufacturers assert that it  
will interfere materially with traffic on  
the thoroughfares leading to the river.  
Surely if council grants a 10 year fran-  
chise to the Chester Street Railway com-  
pany, that company is receiving very  
much more than they give, and have  
not a shadow of right to complain.

## FINAL ACTION OF MINERS.

National Convention Changed Resolu-  
tions and Elected Officers.

COLUMBUS, Jan. 18.—The United  
Mine Workers of America adopted the  
following:  
"Resolved, That the wages of all  
day labor advance in proportion to the  
mining rate.  
"Resolved, That the Jackson, Mas-  
sillon, Coshocton, Carroll and Tuscara-  
was and No. 6 of Columbiana county  
demand 9 cents per ton differential  
over the Hocking valley."

These resolutions were amended by  
striking out Tuscaraawas and Carroll  
counties and the words "other low coal  
fields" inserted.  
"Resolved, That the above scale go  
into effect on Feb. 1."

The election of officers for the ensu-  
ing year resulted: President, M. D.  
Ratford, Ohio; vice president, John  
Kane, Indiana; secretary, W. C. Pearce;  
executive board, J. H. Kennedy, Indi-  
ana; R. L. Davis, Ohio; Patrick Dolan,  
Pennsylvania; Fred Ditcher, Ohio; Henry  
Stephenson, West Virginia, and James  
Carson of Illinois.

P. M. McBride, W. C. Webb and  
Cameron Miller were elected delegates  
to the next Federation of Labor na-  
tional convention.

The next convention is to be held in  
Columbus.  
The operators refused to meet the  
miners in conference today, owing to  
different resolutions adopted at the ses-  
sions. Finally charges were made.  
First, the demand of the convention  
that the new scale of prices go into ef-  
fect February 1 was rescinded. Sec-  
ond, the resolution prohibiting settle-  
ments by districts was rescinded, and  
the entire matter of prices was placed  
in the hands of the district presidents  
and the national executive board.  
Third, it was decided to use every effort  
to secure an advance in the mining rate  
from DeArmit of the Pittsburgh district.

## ROBBERS STOLE \$500.

Entered a Toledo Office and Robbed the  
Cashier.

TOLEDO, Jan. 18.—A man dashed into  
the office of the Northwestern Elevator  
and Mill company Saturday and point-  
ing a revolver at the cashier, cried out:  
"Throw up your hands, give me your  
money and don't say a word or I'll blow  
your head off."

The cashier, who was alone, made a  
rush to the telephone, but the robber  
had cut the wire before entering the  
office. He then walked behind the  
counter, still covering the cashier with  
the revolver, gathered up \$500 in silver  
and gold, placed them in a bag and  
coolly walked out, entered a buggy that  
was in waiting with a second man in it  
and drove away at a lively rate.

## Unemployed Will Be Given Work.

DAYTON, O., Jan. 18.—At a meeting  
of members of the tax commission, city  
council and board of city affairs it was  
decided to borrow \$10,000 to be ex-  
pended in street cleaning, to give em-  
ployment to citizens of Dayton now in  
distress. Mr. Adam Schantz, at a meet-  
ing of the unemployed, agreed to fur-  
nish the B. O. A. \$10,000 to be so  
expended, and the result was the meet-  
ing of the three city boards to approve  
the acceptance of the loan.

## Mellough Declared Insane.

AKRON, O., Jan. 18.—James McHugh  
of Johnstown, Pa., who confessed to  
the murder of Richard Vincent in this  
city two weeks ago, has been adjudged  
insane by Judge E. W. Stuart and will  
be sentenced to the asylum. He stated  
to the judge that he had killed the  
devil, but that there was a son living  
named Brown, whom he must also kill.  
Religious excitement undoubtedly drove  
him insane.

## Assaulted at Steubenville.

STUEBENVILLE, O., Jan. 18.—Richard  
Yoder was assaulted by Albert Needham  
Saturday night near Rustard's  
shaft and struck with some pointed in-  
strument, crushing in his skull over his  
left eye. Yoder is lying and Needham is  
in the lockup awaiting his victim's in-  
juries. Yoder was concerned recently  
in assisting to arrest Needham's son.

## Sultan Seared by Italy.

CONSTANTINOPLE, Jan. 18.—An Italian  
subject named Marani, who was se-  
cretly shipped from Trebizond and  
whose peremptory return to Constanti-  
nople for trial was demanded by the  
Italian ambassador, with a threat to  
send gunboats if the port did not give  
its written promise of compliance, has  
been liberated.

## Got Revenge, But Will Hang.

SPRINGFIELD, Mass., Jan. 18.—Domi-  
nick Krapchinsky, a Pole, shot and killed  
his step-daughter, assaulted his wife and  
then shot himself in the head. He prob-  
ably will live. It was done for revenge  
for an attempt of his wife and step-  
daughter to have him arrested for  
drunkenness and non-support.

In California 50 pounds make a bushel  
of barley; Georgia, Kentucky and  
Pennsylvania, 47; in all the rest, 48.

## A MURDERER CHIEF.

Band of Robbers Spreading  
Terror In Oklahoma.

### GEORGE TAYLOR IS THE LEADER.

A Wagon Train Raided and About \$1-  
600 Stolen—Saloons and Residences  
Robbed at Newkirk—Five Men Dis-  
guised as Tramps Arrested.

GUTHRIE, O. T., Jan. 18.—A party of  
emigrants enroute from Missouri to  
Oklahoma by wagon train have been  
held up and robbed of all money and  
valuables in the mountain country on  
the western line of the Creek reserva-  
tion. The robbers secured about \$1,000.  
There were six bandits under the  
leadership of a man whom one of the  
Missourians recognized as George Tay-  
lor, the escaped murderer of the Meeks  
family. This is the same section in  
which a traveling man recognized Tay-  
lor a month ago and is a rough, moun-  
tainous district, where the Dalton, Cook  
and Dolan gangs formerly had their  
rendezvous.

PERRY, O. T., Jan. 18.—Robbers have  
taken in the town of Newkirk, north of  
here. Saloons were robbed of all money  
and quantities of whisky and beer.  
Residences were entered and many  
things taken out. Officers think the  
robbers came into town under the guise  
of tramps. Five tramps were arrested  
here for highway robbery.

### GUNBOAT SENT TO SIAM.

Assault on Our Vice Consul to Be  
Investigated.

WASHINGTON, Jan. 18.—The gunboat  
Machias has been ordered to Bangkok,  
Siam, from Canton, China, by Secre-  
tary Herbert "to protect American in-  
terests."

The state department declines to di-  
vulge the information from Bangkok  
which causes the dispatch of a warship  
to the scene, but there is no doubt that  
the attack on the United States Vice  
Consul General Edward B. Kellett by  
Siamese soldiers is at the bottom of it.  
Dispatches three weeks ago announced  
that Mr. Kellett, who is an unpaid  
official, appointed by Minister Barret,  
had been fired upon and wounded by  
Siamese soldiers.

For some time litigation has been in  
progress over the estate of an American  
named Cheek, who held a valuable teak  
concession from the Siamese govern-  
ment. This had been highly remuner-  
ative during Cheek's lifetime, but when  
after his death it became desirable to  
wind up his estate the Siamese govern-  
ment took measures to prevent the sale  
of elephants he had raised and employed  
in getting out timber.

It is said that Kellett was the execu-  
tor for the estate, and his activity in  
their behalf probably led to friction  
with the Siamese authorities, who per-  
haps overstepped legal methods in try-  
ing to get rid of him.

### COST OF INAUGURATION TRIP.

Rates For Visitors Given Out by Chair-  
man Bell.

WASHINGTON, Jan. 18.—Washington-  
ians who are making effort to so ar-  
range the inaugural ceremonies of Mr.  
McKinley so that none can complain  
are disturbed by statements circulated  
in certain parts of the country to the ef-  
fect that extortionate rates are to be ex-  
acted of those who come here to wit-  
ness the inauguration ceremonies.  
Speaking to your representative Chair-  
man Bell said:

"If people insist on making their own  
arrangements the inauguration commit-  
tee cannot be held responsible, but it  
can assure any one who will address  
Colonel L. P. Wright, chairman of the  
committee on public comfort, that he  
will secure for them the best accom-  
modations for from 20,000 to 30,000  
persons, mostly in private houses,  
which are well located and which are  
supplied with all modern conveniences.  
The list is daily increasing. The rates  
will average about as follows:  
For lodging only, \$1 per day for beds  
and 75 cents for cot, \$1.25 to \$1.50 for  
lodging and breakfast and \$2 to \$2.50  
for lodging and meals.  
Good horses for the parade may be  
hired for from \$5 to \$10. If persons  
have equipments it would be well to  
bring them, although such as may not  
possess them will be supplied by the  
committee at moderate cost."

### RUINED BY THE WIND.

A Window Glass Factory Blown Down  
at Anderson, Ind.

ANDERSON, Ind., Jan. 18.—A hurri-  
cane wind through the central part of  
Indiana has done damage at various  
points. The greatest here was the de-  
struction of factory No. 4, of the  
Anderson Window Glass company, the  
roof was carried away and the walls  
fell in on fired furnaces and but for  
prompt work of the factory firemen a  
big fire would have occurred.  
Insurance covers the loss. Fifty  
skilled men will be out of work for  
some time. The west wall of the old  
three-story opera house block burned  
out recently was blown down and  
streets leading to it were blocked by  
debris.

### MORE HONORS FOR KEANE.

The Former University Rector Enjoys  
the Special Favor of the Pope.

ROME, Jan. 18.—Bishop John J.  
Keane, former rector of the Catholic  
University of America, in Washington,  
who was recently appointed by Pope  
Leo XIII to the office of bishop assis-  
tant at the pontifical throne, has also  
been made consultant to the congrega-  
tions of the propaganda and studies.  
It is observed in the Vatican circle  
that Bishop Keane enjoys the special  
favor of the pope.

### Spain Recognizes Central America.

MADRID, Jan. 18.—The cabinet of  
Spain has just held here agreed to recog-  
nize the newly formed Central American  
republic.

### Joseph Willard Dead.

WASHINGTON, Jan. 18.—Joseph J.  
Willard, owner of Willard's hotel, is  
dead.

## RIVERA TO CUBA'S FRIENDS.

Maceo's Successor Says Rebels Don't  
Want Cannons, But Guns—Hopes to  
Attack Havana About the End of the  
Winter—Ammunition Needed.

NEW YORK, Jan. 18.—The World  
this morning prints an interview with  
General Ruis Rivera, obtained in field  
near Canco, near Pinar del Rio. In this  
interview General Rivera says:  
"I do not wish to criticize our friends  
in the United States, for I believe them  
(referring to the junta) patriotic men  
and striving to do their best for Cuba,  
but we here, in Pinar del Rio, have been  
somewhat neglected.  
"Great reliance was placed upon Gen-  
eral Maceo, our beloved commander,  
and it was thought that he could not  
only defeat the enemy in the province,  
but finally make a junction with  
Gomez. But he knew and our friends  
should have known also that four or  
five or ten thousand men, poorly armed

"Speaking with reference to cannon,  
I wish it could be communicated to our  
friends in the United States that can-  
non are more in the way of our  
selves than of the enemy in this  
province. In the first place they are in-  
convenient to take about over the hills,  
through the district of Managua and  
among the woods. The cannon we have  
now represents an outlay of \$4,000 or  
\$5,000, and yet almost 1,000 rifles could  
be purchased for that sum. Of course  
when we are in a position to assault  
Havana heavy guns will be a necessity.  
Do we expect it soon? No, not very  
soon—about the end of the winter, I  
hope.  
"There is certainly nothing to be  
gained by making statements that are  
nutrue, or that I do not believe in  
myself."

GENERAL RUIS RIVERA

and most of the time with but scanty  
ammunition, could not prevail against  
50,000 well armed and well fed troops.  
One or two well equipped expeditions  
landed— one at Corrientes bay—but otherwise  
for nine months we have been depend-  
ing upon our strategy and knowledge  
of the province to keep us out of a  
pitched battle.

"There is certainly nothing to be  
gained by making statements that are  
nutrue, or that I do not believe in  
myself."

### GOOD FOR THE CROPS.

A Heavy Fall of Snow Throughout the  
Northwest.

ST. PAUL, Jan. 18.—Throughout the  
Dakotas, Minnesota and Wisconsin a  
regular old-fashioned snowstorm has  
been prevailing and the mercury is  
dropping slowly.

A heavy snowfall has been very gen-  
eral reported and a gale has drifted it  
badly, demoralizing street cars in the  
cities and generally interfering with  
transportation facilities. The fall of  
snow will be good for the coming crops.  
The usual reports of big drifts have  
been received from various points.

### The Treaty Pleases the Pope.

LONDON, Jan. 18.—The Chronicle's  
correspondent at Rome says the pope  
has heard of the signing of the Anglo-  
American treaty with very lively satis-  
faction. He would wish the papacy to  
be regarded as a permanent arbitra-  
tion tribunal for all nations, but he  
is glad to see the principle adopted  
in any form.

### Don't Fear a European Plague.

PARIS, Jan. 18.—In an interview, Dr.  
Roux, who is connected with the de-  
partment of hygiene, denied a report,  
which has been published, that he had  
made experiments with an anti-plague  
lymph. He would know how to pre-  
pare the lymph, he said, if it were  
needed, but he felt confident that  
bubonic plague would never get a hold  
in Europe.

### Operation on the Czar.

ST. PETERSBURG, Jan. 18.—Dr. Berg-  
man, the eminent German specialist,  
has been summoned to perform an oper-  
ation on the czar to prevent the possi-  
ble extension of a slight osseous excres-  
cence on the cranium, where his ma-  
jesty was struck by a Japanese fanatic  
in 1891, while, as czarowitch, he was  
making a tour of the world.

### Were Czar and Czarina Poisoned?

VIENNA, Jan. 18.—Startling rumors  
are current that the czar and czarina  
are suffering from indications of poison-  
ing, but the only ground for them  
seems to be that extensive changes re-  
cently have been made in the kitchen  
of the winter palace.

### A Judge Arrested In Bed.

ST. SCOTT, Kan., Jan. 18.—While  
sick in bed, Judge J. F. McDonald, ac-  
cused of the embezzlement of several  
thousand dollars in fees and moneys  
paid as compromise in the Frontenac  
explosion cases, was arrested and held  
under bond for \$2,755.

### Thirty Years In the Ministry.

PITTSBURG, Jan. 18.—Rev. Nevil  
Woodside, pastor of the Grant Street  
Reformed Presbyterian church,  
preached a sermon last night ap-  
propriate to the thirtieth anniversary  
of his entrance into the ministry.

### The Pope's Chamberlain Dead.

ROME, Jan. 18.—Count Casselli, the  
pope's private chamberlain, formerly of  
Denver, has died here. He was born  
in London in 1829.

## OPPOSED TO HANNA.

Bushnell Said to Want Sher-  
man's Job Himself.

### A SPRINGFIELD REPORTER'S TALE.

He Declares That a Close Relative of the  
Governor Is His Authority and That  
Bushnell Made This Relative a Con-  
fident—Details of the Story.

SPRINGFIELD, O., Jan. 18.—A close  
relative of Governor Bushnell whose  
name cannot be used for obvious reasons,  
makes the statement concerning the  
authenticity of which there can be no  
doubt that Governor Bushnell in so  
many words stated to him that he  
would not appoint Marcus A. Hanna  
to the vacancy in the United States  
senate.

The governor and the relation men-  
tioned had quite a talk on the subject,  
and the governor gave him to under-  
stand that Hanna's name could not be  
considered for the place at all. The  
relative, further along, stated to a local  
newspaperman that there was no doubt  
whatever of Governor Bushnell's desire  
to go to the senate himself. He added  
that he was very ambitious politically  
and that the present situation afforded  
him an opportunity to gratify a long-  
cherished wish to get into the senate.

In connection with the above a num-  
ber of Governor Bushnell's friends are  
openly requesting him to resign as gov-  
ernor and then let Lieutenant Govern-  
or Jones, who would be his successor,  
appoint him senator. Jones would in  
that event, it is urged, be the Republi-  
can candidate for governor next fall by  
the turn of affairs.

### QUAY'S VISIT TO CANTON.

Neither He Nor Penrose Will Talk of  
Their Mission.

PHILADELPHIA, Jan. 18.—United  
States Senator Quay and State Senator  
Penrose have returned to this city from  
their trip to Canton, where they visited  
President-elect McKinley.

Senator Quay remained quietly at the  
Hotel Walton for a few hours, leaving  
later for Washington. He declined to  
be interviewed concerning the confer-  
ence with Major McKinley.  
Speaking of his visit to Canton, Sen-  
ator Penrose expressed his surprise at  
the excellent physical condition dis-  
played by the president-elect. He said  
McKinley's eye was bright and clear  
and his every movement indicated the  
possession of almost perfect health and  
strength. This Mr. Penrose regarded

as remarkable, considering the great  
physical and mental strain Mr. McKin-  
ley has been compelled to undergo for  
several months past.

Senator Penrose says he is perfectly  
satisfied with the result of his visit to  
Mr. McKinley, but, like Senator Quay,  
declined to make any statement.

### SPENT A QUIET SUNDAY.

Major McKinley Went to Church as  
Usual—Some Visitors.

CANTON, O., Jan. 18.—President-elect  
McKinley attended church services as  
usual Sunday morning, going to the  
First Methodist church, of which con-  
gregation he is a trustee. During the  
afternoon he took a drive and later he  
visited his mother.

### Hanna on the Senatorship.

CLEVELAND, Jan. 18.—Chairman  
Hanna said that he had authorized no  
one to state that he had come out as a  
candidate for United States senator to  
succeed Senator Sherman. That was  
matter which he was not discussing  
with anybody, he said. He declared  
furthermore that he made no statement  
such as had been given to the press to  
anybody.

### Hastings Prefers to Be Governor.

HARRISBURG, Jan. 18.—Governor  
Hastings is reported to have declared to  
friends that he preferred to be gov-  
ernor to going into the cabinet.

### THREE WILL LIKELY DIE.

Railroaders Hurt In the Collision of B.  
& O. and Reading Trains.

NEW YORK, Jan. 18.—The three rail-

the collision between the royal blue  
express of the Baltimore and Ohio and a  
Philadelphia and Reading local train  
are in a critical condition in the Euben-  
burg hospital at Plainfield, N. J.

They are: Major Dickerson of Phila-  
delphia, baggage-master on the Phila-  
delphia and Reading train, injured  
fatally; Charles A. Clapp of Jersey  
City, engineer on royal blue, recovery  
considered very doubtful; George Boyd  
of Bound Brook, fireman on local train,  
has concussion of the brain.

### Canadian Bridge Company Fails.

nominally at the same figure.

## TERRORIZED BY RIOTS.

Election Tie Causes Trouble at Byron, Ga.

FOUR MEN WERE WOUNDED.

The Sheriff Had to Restore Order Twice. Young Lady Telegraph Operator Fled. More Rioting May Occur When the Election Is Held Again.

AMERICUS, Ga., Jan. 18.—The village of Byron, in Houston county, has been in a state of riot, in which four men, Messrs. C. C. Richardson, D. L. Bateman, C. C. Bateman and R. H. Bateman were shot and others held in terror. The trouble grew out of an election for municipal offices held two weeks ago, which resulted in a tie, the town dividing into two bitter factions and charging of fraud being fully interchanged between the leaders.

A second election was called for Saturday to decide the contest, in which every voter was brought up to the polls, not a change taking place in the political alignments, thus causing fear of a second tie, which was actually the result. The leaders of the factions were Charles L. Bateman and C. C. Richardson. Unfortunately they approached the polls at the same moment, when a personal collision took place, in which shooting irons were produced. Their followers made a rush home for arms, and in a few moments the village street presented a warlike scene.

The telegraph operator, who was a lady, abandoned her key in terror and thus for hours the outside world was cut off from communication. The arrival of the sheriff restored comparative peace, but later the trouble was renewed and at the ringing of the school bell the entire population was once more in the street. The sheriff succeeded in establishing his authority, but the feud, now started, since the election has to be held over again, is looked upon as one to result in further bloodshed.

PETTIGREW WILL FIGHT.

He Is Opposed to the International Bimetallic Conference Bill.

WASHINGTON, Jan. 18.—The friends of the Nicaragua canal bill in the senate expect it to be taken up early in the week and that it will retain its place at the head of the calendar until disposed of. The bill will lead to considerable debate before voted on, but its advocates are very hopeful of its passage. Senator Morgan will have charge of the measure in the senate and will try to reach a vote before the end of the week. His success in that undertaking will depend upon whether there are many senators who desire to be heard on the bill. So far very few indicated an intention to speak.

Senator Perkins will make an effort, if opportunity offers, to get up the bill for a non-partisan labor commission, and in this he will likely be antagonized by Senator Frye with the Hawaiian cable bill.

Senator Chandler will introduce the caucus committee's bill for an international monetary conference today and will ask to have it voted upon tomorrow without going through a committee. So far, Senator Pettigrew is the only member of the senate who has announced an intention to oppose the bill by vote, though it is expected that others, while giving it no effective opposition, will take position that nothing can be accomplished by international action. Mr. Pettigrew will make a speech against the bill, taking the position that to seek an international agreement amounts to making this country a suppliant of England, which, he says, the chief beneficiary of the present system.

The coming week in the house is likely to be uneventful. There are no bills of great national importance on the house calendar which are to be debated unless the supporters of the Nicaragua canal project should succeed in persuading the committee on rules to design them one or more days for consideration of that measure.

PLAGUES RAGE IN CUBA.

Smallpox and Yellow Fever Causing Deaths in the Island.

WASHINGTON, Jan. 18.—The current number of the public health reports, issued by the marine hospital service, contains a report from Sanitary Inspector Burgess, at Havana, who says that: "During the week ended, Jan. 7, there were 306 deaths in the city, 61 of which were caused by yellow fever, with approximately 170 new cases; 78 were caused by smallpox, with 702 new cases approximately; 9 were caused by enteric fever, 3 by so-called pernicious fever, 4 by paludal fever, 1 by diphtheria, 15 by dysentery, 15 by typhoid, 1 by the grip, 1 by pneumonia and 37 by tuberculosis. Sixty of the 61 deaths from yellow fever during the week were among Spanish soldiers in the military hospitals, while all of the 78 deaths from smallpox occurred among civilians in the smallpox camps of the city."

Yellow fever, on the whole, rather diminished, as might be expected from the cooler weather which has been prevailing for some time, but smallpox increases.

THIRTEEN WERE BURNED.

Children Lose Their Lives in the Asylum Fire Near Dallas, Tex.

DALLAS, Jan. 18.—In the fire at the Buckner Asylum Orphan home, ten miles from Dallas, 12 boys and one girl were burned to death. Their bodies have been recovered.

Other children are missing and their bodies may be in the ruins. Seventeen boys are badly injured and two may die. A special train, with supplies of clothing, bedding, drugs and provisions was sent to the home by the Dallas Commercial club.

The origin of the fire is a mystery.

A Newspaper Man Killed.

NEW YORK, Jan. 18.—Rudd Smith, one of the best known newspaper writers and editors in New York, has been accidentally killed by gas escaping from a defective jet in a room in the Putnam House.

## VICIOUS SWEATING SYSTEM.

New York Factory Inspector Says Congress Can Help Kill It.

ALBANY, Jan. 18.—Congress can, to a very large degree, solve the problem of abolition of the sweating system by passing more stringent emigration laws and by a tax system that would force the workers out of the tenements into shop buildings, where state legislation can reach them.

That is the most important paragraph in the eleventh annual report of the New York state factory inspector, Mr. O'Leary, and he alleges that the greatest evil labor is burdened with is no more prevalent in New York city than it is in Buffalo, Rochester, Syracuse, Philadelphia, Boston, Chicago, San Francisco, Hartford, Newark, St. Louis, St. Paul and every other large center of population, and especially in cities or localities where the manufacture of clothing is carried on to any extent.

In his report Inspector O'Leary says: "With knee pants bringing but from 50 to 75 cents per dozen, vests from \$1 to \$3 per dozen, trousers from 12½ to 75 cents per pair, and coats from 32 cents to \$1.50 each, with a percentage of these prices for the 'boss sweaters,' and another reduction off for cost of carting, which the workman is obliged to pay, we cannot expect to find anything but destitution, suffering, intellectual depression existing among the unfortunate victims of this pernicious system."

"We find men going to the employer and offering to work two or three hours extra if only given a chance to work, thus voluntarily subjecting themselves to a condition of slavery, and right here is where all the evils of the sweating system come in for all complaints are based upon the amount of wages earned and the laws of the state prescribe no remedy which can be applied at this point."

## FAMINE AND PLAGUE.

America Asked to Help the Stricken in India.

LONDON, Jan. 18.—The Daily Mail's Bombay correspondent says: "In the Banda district the famine conditions are harrowing. The whole population is without food, and the people are dying in the road rather than accept the government relief."

The Lord Mayor of London has issued the following:

"The lord mayor of London will receive with profound gratitude any donations from the people of America for the India famine relief funds. He invites the junior branch of the united family to emphasize their noble feeling toward the mother country which the mother country cherishes for them."

The number of deaths from the plague in this city is now estimated, unofficially, to be over 3,000, and there are about 170 additional victims daily, with this number increasing as the time wears on.

## SECRET WITH THE DEAD.

Gold Reserve Locked Up, and No One Living Knows the Combination.

LOUISVILLE, Jan. 18.—The gold reserve of the German Insurance bank, amounting to \$260,000, is safely locked in the reserve vault and cannot be reached. President J. J. Fischer, who alone knew the combination, died a few weeks ago. Search among his effects for a memorandum giving the combination proved fruitless. Experts were called in. They worked several days trying to hit upon a combination. Failing in this, they began drilling two days ago, but it will be some days before the steel door can be penetrated.

## NEWFOUNDLAND ICEBOUND.

Blocked With Floes and Much Traffic With the Island Is Suspended.

ST. JOHN'S, N. F., Jan. 18.—The whole eastern coast of Newfoundland is blocked with ice. An Arctic floe is now visible off this harbor. It will probably prevent the Allen liner Carthagenian, from Liverpool, and the steamer Portia, from New York, effecting an entrance. The mail steamer Virginia is frozen in at a northern port. All shipping traffic is suspended.

The steamer Russian Prince signaled Cape Race, reporting an ice floe 180 miles off the coast.

### FAMINE AND PLAGUE.

America Asked to Help the Stricken in India.

LONDON, Jan. 19.—The Daily Mail's Bombay correspondent says: "In the Banda district the famine conditions are harrowing. The whole population is without food, and the people are dying in the road rather than accept the government relief."

The Lord Mayor of London has issued the following:

"The lord mayor of London will receive with profound gratitude any donations from the people of America for the India famine relief funds. He invites the junior branch of the united family to emphasize their noble feeling toward the mother country which the mother country cherishes for them."

The number of deaths from the plague in this city is now estimated, unofficially, to be over 3,000, and there are about 170 additional victims daily, with this number increasing as the time wears on.

### SECRET WITH THE DEAD.

Gold Reserve Locked Up, and No One Living Knows the Combination.

LOUISVILLE, Jan. 18.—The gold reserve of the German Insurance bank, amounting to \$260,000, is safely locked in the reserve vault and cannot be reached. President J. J. Fischer, who alone knew the combination, died a few weeks ago. Search among his effects for a memorandum giving the combination proved fruitless. Experts were called in. They worked several days trying to hit upon a combination. Failing in this, they began drilling two days ago, but it will be some days before the steel door can be penetrated.

### NEWFOUNDLAND ICEBOUND.

Blocked With Floes and Much Traffic With the Island is Suspended.

St. John's, N. F., Jan. 18.—The whole eastern coast of Newfoundland is blocked with ice. An Arctic floe is now visible off this harbor. It will probably prevent the Allen liner Carthaginian, from Liverpool, and the steamer Portia, from New York, effecting an entrance. The mail steamer Virginia is frozen in at a northern port. All shipping traffic is suspended. The steamer Russian Prince signaled Cape Race, reporting an ice floe 180 miles off the coast.

## WANTS MORLEY'S GOLD

**William Tucker Sues For False Imprisonment.**

**CLAIMS FIVE THOUSAND DOLLARS**

**He Says That Malice Prompted His Arrest For Damaging Buildings and Fruit Trees. A Salem Woman Seeks a Divorce on the Usual Grounds.**

LISBON, Jan. 18.—[Special.]—An injured reputation through an arrest and two days imprisonment bases a \$5,000 damage claim filed in court today by William Tucker, of East Liverpool. Superintendent Phil Morley is the defendant.

It is alleged by Tucker that on July 27, last, Morley caused his arrest on a charge of having wilfully and maliciously injured certain buildings, fruit trees and other improvements on property occupied by him, but owned by the East Liverpool Ice Company. It is located on Carpenter's run, and the damage claimed to have been done by Tucker amounted to \$200. After a hearing before a squire the matter was turned over to the October grand jury which failed to indict him. Morley is charged with having instigated the case maliciously and without cause.

Mrs. Vesta Lingo, of Salem, has petitioned the court for a divorce from John M. Lingo. The grounds are neglect and intemperate habits.

Contrary to former announcements Judge G. S. Gillmer, of Warren, opened the January term of court this afternoon, and after impaneling the grand jury, proceeded with the work. The grand jury will have little to do, not more than 60 witnesses having been subpoenaed, and a report will probably be handed down Wednesday evening. The case of Whitacre versus Albright, appealed to common pleas from Hanover township, is being tried this afternoon.

### BIG REVOLVERS

**Have Been Supplied Agents of the Pennsylvania.**

Many of the agents of the Pennsylvania lines have recently been supplied with large 40-caliber Smith & Wesson, six-shot, self-cocking revolvers, with eight-inch barrels. They are terrible weapons at close or long range, and the burglar or car robber who happens to be standing in front of one of them when the trigger is pulled will be only fit for the morgue. The knowledge that such weapons are about the stations will make desperadoes fight shy of such places.

## CLOTHES CAUGHT FIRE

**And a Little Child at Walker May Die.**

**HE WAS RESCUED BY THE MOTHER**

**But the Injuries He Received Are Dangerous—Too Close to the Grate—Body and Hands Badly Burned—Help Came From the Office.**

The little child of John Cuscardonish, a Hungarian employed at the Walker works, is not expected to live as the result of an accident which befell it late Saturday afternoon.

The little one is not more than three years of age. At the time mentioned he was left in a room by his mother, and went too close to the fire. His clothes caught, and shrieking with pain and fright he ran toward the door. At that moment Mrs. Cuscardonish entered the room, and quickly extinguished the flames. Aid was summoned from the office of the plant, and such remedies as the force could command were applied at once. A physician was called from this city who found the child badly burned about the abdomen, chest and arms. The flesh was literally cooked, but it is not believed the little one inhaled the flame. He was resting as well as could be expected this afternoon, but it will be several days before the danger is over.

### THE SENATORIAL FIGHT.

**Hon. A. H. McCoy Is Forging to the Front.**

The gentleman has been looking after his fences, and is as confident as ever that Columbiana will get the nomination for state senator. Many leading Republicans of Jefferson and Harrison believe the nomination belongs to this county, and there are reasons for believing they will stand by their opinion. Mr. McCoy's many friends in this city are sure of his success.

### Her Little Boff.

The teachers of an east side sewing school have been much annoyed of late by the children making all sorts of excuses to get out early. So many and so urgent were these requests that the school became more or less demoralized in consequence, and the wealthy women who were its philanthropic and financial backers advised the teachers to render null and void any more appeals of the sort. This the teachers endeavored to do. The other morning, however, a little girl, after the preliminary hand raising, announced that it was imperative that she leave at a quarter of 12 o'clock. "Why can't you stay until 12?" asked the teacher. "It is only 15 minutes later, and it creates disorder for you to leave before the rest." "Mamma wishes me to leave at a quarter of 12," returned the child with an assumption of the grand manner that, in spite of her rags and tangled hair, much impressed even the teacher. "You see," went on the little girl, "it gives the waitress so much trouble to prepare me an extra luncheon, and that's what she has to do when I don't get home until after 12. Mamma wouldn't ask it if it wasn't for the waitress and the luncheon."

The teacher was even more impressed with "the waitress" and the "luncheon" than she had been with "mamma," so she granted the request. But as the little one skipped gleefully past the others to get her wraps the teacher heard one of the other children say: "I say, Mamie, what did you mean by putting up that awful bluff? Much mamma and waitress and luncheon you've got!" "Of course I haven't got 'em," replied Mamie, "but I've heard that rich little girl that lives around the corner talk a heap about 'em, and I just thought I'd try it too."—New York Sun.

### The Keen Newsboy.

A banker who counts his wealth by seven figures, and an exceptionally well known figure on the streets of Chicago, came out of his office about dusk the other evening. As he reached the corner he stepped up to a newsboy and bought the evening papers, but when he felt in his pocket for change he discovered he did not have a single penny. He fumbled first through one pocket, then another, but the search was fruitless. "I have no change," he said to the newsboy, who had patiently waited for his pay, as he handed back his papers. "Hain't yer got any money tonight?" the urchin asked. "Not a cent," answered the banker. "That's all right," said the newsboy. "I kin lend you some. How much d'yer want?"

The banker looked at the boy and smiled knowingly. The unusual circumstance of a street arab proffering a loan to a millionaire banker struck him as being particularly comical. He took a quick mental survey of the boy and decided what to do. "Give me a quarter," he said. He paid for his papers and pocketed the remaining change. Then, turning to the boy, he said:

"It's a bad habit, that of giving credit to strangers on the street and loaning them money. You don't know who I am or whether you'll ever get your money back."

"Oh, I know you. You're president o' that bank over there."

"Come to my office tomorrow and get back your loan," said the banker as he walked to the cable car.

And the newsboy kept right on calling his papers. —Chicago Chronicle.

### Basilisks and Dragons.

One of the peculiarities of the ancient writers on natural history subjects was the implicit faith which they placed in the genuineness of the various basilisk and dragon stories which were told to them. Brunetto, for an instance to the point, relates with all soberness that "the basilisk is the king of serpents. He wears a white crest upon his head, and such is the abundance of his venom that the air is poisoned wherever this dire reptile passes. Trees in which he makes his home exhale such a poisonous odor that birds in flying over are so overcome with it that they fall to the ground dead."

"The dragon," says the same author, "is the very largest of serpents and inhabits especially India and Ethiopia. When he flies out of the caverns in which he makes his home, he furrows the air with such violence as to make it gleam with fire. His mouth is small, and he has not the power to inflict deadly wounds with his teeth. In his tail, however, his power lies, and with it he can instantly strangle the largest elephant."—St. Louis Republic.

### Fame.

When Mme. Albani was at the Norwich musical festival, she received a bill from a tradesman with whom she dealt, addressed Mrs. L. Barney. Mistakes in artists' names are, however, by no means uncommon. The veteran conductor Arditi—the story is not in his reminiscences—once received a letter addressed "Signor R. Ditty." And only last season a gentleman in the stalls at Covent Garden gravely informed a lady: "The De Reszkes are a remarkably clever family. There are Jean de Reszke and Edouard de Reszke and Paderewski."—Household Words.

### Disobeyed Instructions.

When they told her that the young man whose suit she had rejected the previous evening had hanged himself to the gatepost directly he left her, the beautiful girl shrugged her shoulders. "It isn't my fault," she said coldly. "I specifically told him he mustn't think of hanging around here any more."—Detroit Tribune.

## WANTS MORLEY'S GOLD

William Tucker Sues For False Imprisonment.

CLAIMS FIVE THOUSAND DOLLARS

He Says That Malice Prompted His Arrest For Damaging Buildings and Fruit Trees—A Salem Woman Seeks a Divorce on the Usual Grounds.

LISBON, Jan. 18.—[Special].—An injured reputation through an arrest and two days imprisonment bases a \$5,000 damage claim filed in court today by William Tucker, of East Liverpool. Superintendent Phil Morley is the defendant.

It is alleged by Tucker that on July 27, last, Morley caused his arrest on a charge of having wilfully and maliciously injured certain buildings, fruit trees and other improvements on property occupied by him, but owned by the East Liverpool Ice Company. It is located on Carpenter's run, and the damage claimed to have been done by Tucker amounted to \$200. After a hearing before a squire the matter was turned over to the October grand jury which failed to indict him. Morley is charged with having instituted the case maliciously and without cause.

Mrs. Vesta Lingo, of Salem, has petitioned the court for a divorce from John M. Lingo. The grounds are neglect and intemperate habits.

Contrary to former announcements Judge G. S. Gillmer, of Warren, opened the January term of court this afternoon, and after impaneling the grand jury, proceeded with the work. The grand jury will have little to do, not more than 60 witnesses having been subpoenaed, and a report will probably be handed down Wednesday evening. The case of Whitacre versus Albright, appealed to common pleas from Hanover township, is being tried this afternoon.

### LEFT THE CITY.

No Trace Can Be Found of the Fourth Street Thieves.

It is believed that the men who snatched a roll of bills from J. C. Mack all while he was handing the money to Poker Anderson on Fourth street have left the city. The pair have not been seen since the man with the money ran down the alley at the school building. It is believed they know Anderson recognized them, and fear arrest if they return. The police have been on the lookout for them, but to their afternoon efforts were without success.

### ROBBED A REFRIGERATOR.

Thieves Visited the Residence of W. H. Surles.

A quantity of provisions were carried away. Benton Knowles, who lives nearby, was awakened by hearing noises a few hours before daybreak, and looking out saw several men prowling about the Surles residence.

### THE POOR AND NEEDY

Are Being Cared For by the Asbury Brotherhood.

An important meeting of the Asbury Brotherhood was held in the Methodist Protestant church yesterday. A special program was thoroughly enjoyed, the violin solo by Dr. H. H. Bean being especially enjoyable. The report of committees showed that 29 sick persons had been visited, and 16 families had been provided with clothing and coal. The meeting was addressed by Doctor Tracy. The Brotherhood now has a membership of 203 and is doing a great deal of good.

Doctor Reager preached to the Brotherhood last night, a large number of members being present. The sermon was among the best ever heard in Wellsville, and so touching that more than one of the congregation was in tears before the evening closed.

### BIG REVOLVERS

Have Been Supplied Agents of the Pennsylvania.

Many of the agents of the Pennsylvania lines have recently been supplied with large 40-caliber Smith & Wesson, six-shot, self-cocking revolvers, with eight-inch barrels. They are terrible weapons at close or long range, and the burglar or car robber who happens to be standing in front of one of them when the trigger is pulled will be only fit for the morgue. The knowledge that such weapons are about the stations will make desperadoes fight shy of such places.

### THE PIRATES WON.

Football on Skates Pleased a Big Crowd.

Football on skates pleased a big crowd at the rink Saturday night. The Pirates winning by 14-0. The game was interesting, but the Pirates had the heavier team. They massed on the center, and bucked the Athletics right along. No one was seriously hurt, although all sorts of predictions were made before the game, and someone asked the mayor to prohibit. The police investigated, and allowed the game to go on.

### The News of Wellsville.

### NO JURY TRIAL.

They Are Few and Far Between in Police Court.

Mayor Gilbert has not had a jury trial in his court for months, the last being that of Saloonist Thompson. In speaking of saloon cases the mayor said: "There is a disposition on the part of those who break the liquor laws to pay when the fine is not too great, but when it is \$50 or more they not only stand trial here, but will spend more money to take the case to court if it is possible to find a flaw."

### WHIPPED HIS WIFE.

It Caused Commotion on an Alley Near Franklin.

There was a family row in an alley leading from Franklin street this morning, an inhuman husband whipping his wife arousing the neighborhood, and causing no end of commotion for a time. Parties who know the particulars are only sorry the woman cannot be prevailed upon to have her husband arrested.

### ANOTHER CASE.

Diphtheria Has Appeared Again in the City.

The first case of diphtheria reported to the authorities for a week came to Doctor Ogden this morning. The victim is Bernard, the little son of J. J. Parinton. He was in church yesterday and apparently as well as any. The house was quarantined this morning. No other cases were reported during the day.

### A Good Sermon.

## CLOTHES CAUGHT FIRE

And a Little Child at Walker May Die.

HE WAS RESCUED BY THE MOTHER

But the Injuries He Received Are Dangerous—Too Close to the Grate—Body and Hands Badly Burned—Help Came From the Office.

The little child of John Cuscardonish, a Hungarian employed at the Walker works, is not expected to live as the result of an accident which befell it late Saturday afternoon.

The little one is not more than three years of age. At the time mentioned he was left in a room by his mother, and went too close to the fire. His clothes caught, and shrieking with pain and fright he ran toward the door. At that moment Mrs. Cuscardonish entered the room, and quickly extinguished the flames. Aid was summoned from the office of the plant, and such remedies as the force could command were applied at once. A physician was called from this city who found the child badly burned about the abdomen, chest and arms. The flesh was literally cooked, but it is not believed the little one inhaled the flame. He was resting as well as could be expected this afternoon, but it will be several days before the danger is over.

### THE SENATORIAL FIGHT.

Hon. A. H. McCoy Is Forging to the Front.

Hon. A. H. McCoy was in the city today after a trip through Jefferson, Belmont and Harrison counties. The gentleman has been looking after his fences, and is as confident as ever that Columbus will get the nomination for state senator. Many leading Republicans of Jefferson and Harrison believe the nomination belongs to this county, and there are reasons for believing they will stand by their opinion. Mr. McCoy's many friends in this city are sure of his success.

### A HARD BLOW.

Some Damage Was Done by the Wind Last Night.

Some damage was done by the wind last night, but it will not amount to much when counted in dollars and cents. A chimney on the light plant was blown down, and the ferry boat was turned half around. Dead limbs were blown from trees in all parts of the city.

### The Jail Is Empty.

Edward Jones, the Martin's Ferry man arrested for fighting last Thursday evening, paid his fine Saturday night and was released.

Claude Davis, who was jailed Saturday morning, is also out. He effected a compromise with R. B. Allen, the hotel man who made complaint against him.

### The Spooners.

The Spooners tonight begin a week's engagement at the Grand, coming with good recommendations. The excellent acting of Miss Cecil and Miss Edna, together with the special attractions, will make their stay in the city very pleasant for theater goers. The play is "Inez."

### Chased the Car.

A Wellsville man anxious to ride home amused a large crowd in the Diamond Saturday night. He missed the car, and ran down the track to the Sixth street switch, but again he was disappointed, the motorman going on his way.

### Loading Today.

The employees of the Union pottery are loading today on account of a scarcity of boards.

### Hobart on the Cabinet.

NEWARK, N. J., Jan. 18.—Vice President-elect Charles A. Hobart, in an interview, said that there would be no cabinet appointments from New Jersey, more particularly for the reason, he added, that New Jersey seems to have been pretty well provided for.

### Elliott Keeps the Star Trophy.

### Rev. Dr. Mace Dead.

PHILADELPHIA, Jan. 18.—Rev. James R. Mace, pastor of the First Methodist Episcopal church, Camden, died at the church parsonage, Broadway and Berkeley streets, after an illness of six weeks.

### Her Little Bluff.

The teachers of an east side sewing school have been much annoyed of late by the children making all sorts of excuses to get out early. So many and so urgent were these requests that the school became more or less demoralized in consequence, and the wealthy women who were its philanthropic and financial backers advised the teachers to render null and void any more appeals of the sort. This the teachers endeavored to do. The other morning, however, a little girl, after the preliminary hand raising, announced that it was imperative that she leave at a quarter of 12 o'clock. "Why can't you stay until 12?" asked the teacher. "It is only 15 minutes later, and it creates disorder for you to leave before the rest." "Mamma wishes me to leave at a quarter of 12," returned the child with an assumption of the grand manner that, in spite of her rags and tangled hair, much impressed even the teacher. "You see," went on the little girl, "it gives the waitress so much trouble to prepare me an extra luncheon, and that's what she has to do when I don't get home until after 12. Mamma wouldn't ask it if it wasn't for the waitress and the luncheon."

The teacher was even more impressed with "the waitress" and the "luncheon" than she had been with "mamma," so she granted the request. But as the little one skipped gleefully past the others to get her wraps the teacher heard one of the other children say: "I say, Mamie, what did ye mean by putting up that awful bluff? Much mamma and waitress and luncheon you've got!" "Of course I haven't got 'em," replied Mamie, "but I've heard that rich little girl that lives around the corner talk a heap about 'em, and I just thought I'd try it too."—New York Sun.

### The Keen Newsboy.

A banker who counts his wealth by seven figures, and an exceptionally well known figure on the streets of Chicago, came out of his office about dusk the other evening. As he reached the corner he stepped up to a newsboy and bought the evening papers, but when he felt in his pocket for change he discovered he did not have a single penny. He fumbled first through one pocket, then another, but the search was fruitless.

"I have no change," he said to the newsboy, who had patiently waited for his pay, as he handed back his papers.

"Hain't yer got any money tonight?" the urchin asked.

"Not a cent," answered the banker.

"That's all right," said the newsboy. "I kin lend you some. How much d'yer want?"

The banker looked at the boy and smiled knowingly. The unusual circumstance of a street arab proffering a loan to a millionaire banker struck him as being particularly comical. He took a quick mental survey of the boy and decided what to do.

"Give me a quarter," he said. He paid for his papers and pocketed the remaining change. Then, turning to the boy, he said:

"It's a bad habit, that of giving credit to strangers on the street and loaning them money. You don't know who I am or whether you'll ever get your money back."

"Oh, I know you. You're president o' that bank over there."

"Come to my office tomorrow and get back your loan," said the banker as he walked to the cable car.

And the newsboy kept right on calling his papers. —Chicago Chronicle.

### Basilisks and Dragons.

One of the peculiarities of the ancient writers on natural history subjects was the implicit faith which they placed in the genuineness of the various basilisk and dragon stories which were told to them. Brunetto, for an instance to the point, relates with all soberness that "the basilisk is the king of serpents. He wears a white crest upon his head, and such is the abundance of his venom that the air is poisoned wherever this dire reptile passes. Trees in which he makes his home exhale such a poisonous odor that birds in flying over are so overcome with it that they fall to the ground dead."

"The dragon," says the same author, "is the very largest of serpents and inhabits especially India and Ethiopia. When he flies out of the caverns in which he makes his home, he furrows the air with such violence as to make it gleam with fire. His mouth is small, and he has not the power to inflict deadly wounds with his teeth. In his tail, however, his power lies, and with it he can instantly strangle the largest elephant."—St. Louis Republic.

### Fame.

When Mine. Albani was at the Norwich musical festival, she received a bill from a tradesman with whom she dealt, addressed Mrs. L. Barney.
